

CASA

Court Appointed Special Advocates
FOR CHILDREN

CASA is a non-profit organization based on volunteers who represent children who have been subject to abuse and neglect. A CASA volunteer gets to know a child's case and is trained to help identify resources to help. Currently, our local CASA program in Lake County works with about 20 children who have been removed from their homes. As we expand our services into Sanders County, this number could double.

For more information or to get involved, contact us at...
